

In this environment of constant bombardment with advertizing wether it 's over the air waves or via the internet it would seem to me that this law, a good law. Which aids us in the right to privacy should be kept active in the state of NJ and enforced through out the country. We are not interested in buying anything over the phone and ar esure many of our fellow americans feel the same. I would suggest if you really want to do something to help us that you monitor the telemarketing industry even further I'm sure that most fraud begins there.

Do your job Protect us. Thats what you were hired to do.
